

Thank You To Outgoing Board Members

December 2018

We are tremendously grateful for our dedicated Board of Directors. Their indispensable expertise, vision, and passion for hypertension education and management is parallel to the level of excellence we strive to achieve. This year, we say goodbye and thank you to several of our board members who are finishing their term this year. Please take a moment to read all about these outgoing Board members below and join us in thanking them for their service!

Dr. Ross Feldman was Hypertension Canada's first President and Chair of the Board of Directors, elected in 2010 and retires after eight years of continuous service. As a prominent member of the Canadian Hypertension Society, Dr. Feldman played a key role on the Transition Committee, helping create one cohesive organization from the three heritage organizations. Dr. Feldman was instrumental in organizing the inaugural Congress in 2011 and has been a CHC Co-Chair for each Congress since. He has served on the Research Policy Committee (Vice-Chair), the Awards Committee, the Operations Committee and the Guidelines Task Force. Dr. Feldman has been recognized for his commitment, dedication and immeasurable contributions of time and expertise to Hypertension Canada by being awarded the Distinguished Service Award in 2006 and the George Fodor Award in 2010.

Dr. Sheldon Tobe was elected to Hypertension Canada's Board of Directors in 2011 and retires after seven years of continuous service. As a prominent member of CHEP, Dr. Tobe played a key role on the Transition Committee, helping create one cohesive organization from the three heritage organizations. Dr. Tobe has served on the Research Policy Committee, the Operations Committee and the Guidelines Task Force. He is a renowned speaker and has presented regularly at the CHC. Dr. Tobe has been recognized for his commitment and dedication to Hypertension Canada by being awarded a Certificate of Excellence in 2008.

Dr. Ross Tsuyuki was a member of Hypertension Canada's first Board of Directors, elected in 2010 and retires after eight years of continuous service. As a prominent member of the hypertension community, Dr. Tsuyuki played a key role on the Transition Committee, helping create one cohesive organization from the three heritage organizations. Dr. Tsuyuki has served on the Research Policy Committee, the Education & Implementation Committee and co-chaired Edmonton Primary Care Days in 2017. Dr. Tsuyuki's influence within the CPhA has greatly increased Hypertension Canada's profile with the pharmacist community. Dr. Tsuyuki has been recognized for his commitment and dedication to Hypertension Canada by being awarded a Certificate of Excellence in 2007.
