Committee/Project Descriptions

Facilitator - Professional Certification Program (PCP)

The Hypertension Canada Professional Certification Program is designed to arm pharmacists with the knowledge and confidence to identify and manage patients with hypertension. Through online learning modules covered in Level 1 and practical application using real-world cases in Level 2, this comprehensive certification program provides the opportunity to examine and execute the core competencies of hypertension management to improve patient care. This program is designed to:

- Provide the knowledge and confidence to identify and manage patients with hypertension
- Use practical application and skill-building to implement hypertension management strategies at the pharmacy level
- Provide evidence-based learning with a goal to improve guidelines adoption and adherence

Expert Reviewer – Device Recommendation Program

Hypertension Canada's Recommended BPM Devices Listing is designed to help people in their purchasing decisions by easily identifying devices that are validated in studies as accurate. Devices used to measure blood pressure at home can be purchased from most pharmacies and stores that sell health care equipment.

Finance Committee

The Finance Committee is a standing committee of the Board of Directors established to assist the Board in fulfilling its oversight responsibilities with regard to financial reporting, financial policies, strategies and activities, and financial risk management. These responsibilities are carried out in accordance with approved policies that comply with generally accepted accounting principles (GAAP).

Governance Committee

The Governance Committee is a standing committee of the Board of Directors established to recommend the organizational structure, including Committee structure and composition, nominees for Board and standing committee appointments, required policies, processes, and by law revisions to support the decision-making model.

Awards Committee

The Awards Committee is established by Hypertension Canada's Board of Directors to do the pre-work of the Board in regard to implementation of the selection process for the annual recognition awards, submission of names of recommended award recipients to the Board of Directors, review of awards policy, criteria and recommendations to the Board of Directors for any changes or additions.

Guidelines Committee

The Guidelines Committee is a Hypertension Canada Committee established to build the Hypertension Canada Guidelines quality for increased professional uptake and encourage and enhance innovation in Hypertension Canada's clinical practice guidelines process.

VOLUNTEER APPLICATION FORM

Education & Implementation Committee

The Education & Implementation Committee is an Operations sub-committee established to build Hypertension Canada's value and reputation as the trusted hypertension resource, create needs-based education materials for increased health care professional and patient adoption of the Hypertension Canada Guidelines.

Membership Committee

The Membership Committee is a new committee established and execute a national strategy for membership recruitment and retention.

Fund Development Committee

The Fund Development Committee (FDC) is a standing committee of the Board. Working in collaboration with the board, its purpose is to support the fund development for Hypertension Canada and includes planning, coordination, implementation and evaluation of fund development activities.

Please submit completed application by emailing info@hypertension.ca.
