VOLUNTEER APPLICATION FORM

Personal Statement

Provide a personal statement highlighting why you are interested in being a Committee Member/Project and are a strong candidate (highlight interests, professional expertise/background, participation in Hypertension Canada initiatives, etc.) You may provide your response on a separate page.

VOLUNTEER APPLICATION FORM

Committee/Project Descriptions

Expert Reviewer – Device Recommendation Program

Hypertension Canada's Device Recommendation Program assists Canadians, healthcare professionals, and organizations in their purchasing decisions related to home, clinical, and ambulatory blood pressure measurement devices. Its goal is to inform healthcare professionals and the public about blood pressure devices that have been properly validated and recommended by Hypertension Canada to improve the accuracy of blood pressure readings.

Expert Reviewer – Professional Certification Program

Hypertension Canada's Professional Certification Program is designed to arm primary healthcare professionals with the knowledge and confidence to identify and manage patients with hypertension. Through online learning modules and practical applications using real-world patient cases, this comprehensive certification program provides the opportunity to examine and execute the core competencies of hypertension management to improve patient care.

Membership Committee

The Membership Committee is a standing committee of the Board of Directors, established to assist the Board in fulfilling its oversight responsibilities in regards to membership reporting, policies, strategies and activities, and overall membership recruitment and retention.

Awards Committee

The Awards Committee does the pre-work of the Board for the selection process for the annual recognition awards. The Committee reviews the submitted nominations, as well as awards policy and criteria.

Canadian Hypertension Congress Committee

The CHC (Canadian Hypertension Congress) Planning Committee is established to set the goals for and guide the planning of Hypertension Canada's annual scientific congress, the only national congress focused solely on hypertension. Its objective is to build and strengthen the Canadian Hypertension Congress' appeal and value to increase attendance and revenue.

Governance Committee

The Governance Committee is a standing committee of the Board of Directors, established to recommend committee structure and composition, nominees for the board, and standing committee appointments. It also makes decisions on required policies, processes, and bylaw revisions to support the decision-making model.

Guidelines Committee

The Guidelines Committee is established to build the Hypertension Canada Guidelines. The Committee encourages innovation in Hypertension Canada's clinical practice guidelines process.

Education and Implementation Committee

The Education and Implementation Committee is established to build Hypertension Canada's value and reputation as the trusted hypertension resource. The Committee creates needs-based educational materials for increased adoption of the Hypertension Canada Guidelines.

Committee/Project Descriptions

Research and Evaluation Committee

The Research and Evaluation Committee's primary goal is to promote hypertension research with a focus on surveillance, treatment, and control. The committee also provides impact numbers on the landscape of hypertension guidelines and identifies the impact of specific health behavior recommendations and/or changes in society.

Finance Committee

Hypertension Canada's Finance Committee assists the Board in providing financial analysis, advice, and oversight of the organization's budget. The Finance Committee regularly reviews the quarterly financial statements and provides recommendations to ensure HC's financial health.
